## What is Preceptorship?

Preceptorship is a dedicated programme of structured transition, to guide and support you into an autonomous professional, develop your confidence and refine your skills, values and behaviours.

## Who is Preceptorship for?

- All newly registered Allied Health Professionals (AHP), Nurses and Nursing Associates
- Newly qualified, return to practice, and overseas educated professionals

## SOAR Preceptorship Programme

Our SOAR Preceptorship Programme is a 12-month mandatory programme combining group classes and one-to-one support from an experienced registrant known as a Preceptor. This supports learning from best practice and networking with peers.

As a SOAR Preceptee you will have a badge to help others recognise that you are in a transitional process and to remind them of the support you need.
